

## GEORGE SWINBURNE STEM POSTGRADUATE SCHOLARSHIP

### 30% scholarship

What does it take to change the world? Surprisingly, not much.

All you need is a good idea and someone to put it into action. Here's one: the George Swinburne STEM Achievement Postgraduate Scholarship. Inspired by our founder George Swinburne's strong belief in educational opportunities for all, we thought it would be a great idea to award aspiring engineers, scientists and tech gurus a 30% reduction in tuition fees for the duration of the course. Okay, hardly a world-changing idea, but we'll leave that job to you.

#### Am I eligible?

You belong to the next generation of inventors, risk-takers and problem solvers who will change the way our world works. And so, you should have the chance to pursue your dream. We don't believe that straight As are the only indicator of success at uni, that's why this scholarship is open to anyone who applies for and meets the entry requirements of our selected courses.

#### Terms and conditions

To be eligible, you must

- meet the entry requirements for:
  - [Master of Engineering Science](#)
  - [Master of Information Technology](#)
  - [Master of Professional Engineering](#)
  - [Master of Science \(Biotechnology\)](#)
  - [Master of Construction and Infrastructure Management](#)
  - [Master of Data Science](#)
  - [Master of Cybersecurity](#)
- apply for and commence in Semester 1, 2020 or Semester 2, 2020. If your application to study at Swinburne is successful, you will receive an email from us. You will also find out if you have received a scholarship in the same email.
- be a citizen of any country except Australia or New Zealand. Permanent residents of Australia are not eligible.
- not be holding another Swinburne scholarship or reduced fee arrangement.
